

# Sleepy Hollow

**Stefan Goldmann**

There's a place I call sleepy hollow  
Where I go when you're not around  
There's a brook running clear in the meadow  
    I lose my blues in it's sound  
The wind and the trees from the hollow  
    Whisper secrets of life in my ear  
    When I lay down in their shadows  
        I dream that you're still here  
The bubbling babbling brook is your laughter  
    The wind blowing softly, your touch  
    I've found the one thing I'm after  
    Your love, your love means so much, oh  
        Until you say that you love me  
    And make all my dreams come true  
    I'll go down to my sleepy hollow  
        And dream my dreams of you  
    I'll go down to my sleepy hollow  
        And dream my dreams of you
