

If You Ever Get Famous

The Duke & The King

If you ever get famous
Don't forget about me
I hope it's everything that you
 Thought it would be
If you ever get famous
 Don't forget about her
 She was there boy before
Anybody cared who you were
 You better remember
 If you ever get famous
 I say a prayer for your heart
You keep your eyes open wide and
 Beware the sharks
 Cause they come out in the dark
 If you ever get famous
 Show your face now and then
 Cause all our days are so many
 Ways in the wind
And we can't get them back again
 So many days in the week
 Let them roll on by
 So many days in the week
 Roll on, roll on, roll on
 So many days in the week
 Let them roll on by
 If you ever get famous
 In your white limosine
 It's a rainy night and your
Headlights hit the water in the streets
 And the rain beats down
 And keep an eye on the driver
 Cause as the highway unwinds,
Boy, the way home fades and can
 Be so hard to find
 Oh my oh my, oh my
 So many days in the week
 You keep on running round
 So many days in the week
You've been running all your life

So many days in the week
In the hope to find what you're looking for
So many days
If you ever get famous
Don't forget about me
I hope it's everything that you
Thought it would be
