

Revenge

Plain White T's

By now you should
Know everything you say
Can and will be used
Against you some day I got the microphone
So don't go too far
'Cause I'm gonna
Tell the whole world
How you really are I don't even care
How you're gonna feel
'Cause I've already tried
To give you something real So go ahead and get mad
Never talk to me again
I don't even care 'cause I got my Revenge, revenge, revenge
Got my revenge One night
You're begging me to stay
The next night
You push me away I don't need
You're promising to give it up
It's too late
'Cause now I'm giving up Revenge, revenge
Got my revenge By now you should
Know everything you say
Can and will be used
Against you some day I got the microphone
So don't go too far
'Cause I'm gonna tell
The whole world
How you really are So go ahead and get mad
Never talk to me again
I don't even care 'cause I got my Revenge, revenge
Got my revenge
Revenge, revenge, revenge
Got my revenge
Revenge, revenge
