## Revenge

## **Plain White T's**

By now you should Know everything you say Can and will be used Against you some dayI got the microphone So don't go too far 'Cause I'm gonna Tell the whole world How you really areI don't even care How you're gonna feel 'Cause I've already tried To give you something realSo go ahead and get mad Never talk to me again I don't even care 'cause I got myRevenge, revenge, revenge Got my revengeOne night You're begging me to stay The next night You push me awayI don't need You're promising to give it up It's too late 'Cause now I'm giving upRevenge, revenge Got my revengeBy now you should Know everything you say Can and will be used Against you some dayI got the microphone So don't go too far 'Cause I'm gonna tell The whole world How you really areSo go ahead and get mad

Got my revenge
Revenge, revenge
Got my revenge
Revenge, revenge
