

Here Comes Trouble

Honor Society

She's a pistol, pointed at me
Smoking from her head to her feet
Packing the heat
She's lethal, with a license to kill
Her love is ripping up in the street
She's a heart breaker, like a masterpiece
She could look even better than me
She's the baddest girl I've ever seen
How could something that's so wrong
Be exactly what I need?

Here comes trouble again
Better act carefully
She knows what she's doing to me
She makes it look so easy
Here comes trouble again
My heart tells me to leave
But a girl like that's on a different level
Here comes trouble, trouble

She's a razor cutting me deep
Very, very rapid
She's like a pistol, pointed at me
Smoking from her head to her feet
She's a heart taker, double agent in heels
But I love the way she's making me feel
She's the baddest girl I've ever seen
So hard to walk away
With her hands all over me

Here comes trouble again
Better act carefully
She knows what she's doing to me
She makes it look so easy
Here comes trouble again
My heart tells me to leave
But a girl like that's on a different level
Here comes trouble

Yeah, she's gaining on me

Faster and

She's the baddest girl I've ever seen
Something that's so wrong
Is exactly what I need, oh, oh

Here comes trouble again
Better act carefully
She knows what she's doing to me
She makes it look so easy
Here comes trouble again
My heart tells me to leave
But a girl like that's on a different level
Here comes trouble

Trouble again
Better act carefully
She knows what she's doing to me
She makes it look so easy
Here comes trouble again
My heart tells me to leave
But a girl like that, she's a different level
Here comes trouble
