

Calico Girl

Guy Forsyth

And she was beautiful as an ambulance at midnight
Sweet as a practiced promise
Hungry as a video arcade
And I was lost as a coyote on Main Street
Desperate as the last day of summer
Runin' like a dog on a chain
She said I like you
And said I would like to, too
Why don't we get away?
She took me in and chewed me up
And said I hope you'll stay
And I holler where will I find her
Where will I find my calico girl?
I keep abreast of the situation
And a leg up on the throat of the competition
And my head in the game
But I tread a little softer when I walk
And there's a little bit of poison in my talk
But the results are the same
And I've been struggling to put a still point in my head
As well a someone who could take the blame
I've been burned but I have healed
Now I need a new flame
And I holler where will I find her
Where will I find my calico girl?
