

# Somebody New

[Billy Ray Cyrus](#)

I wish you all the best, love, love and happiness, love  
And everything you'd ever want, have, see or do  
And from the bottom of my heart  
I hope you never find somebody new And anyone who tells you that broken hearts mend easy  
Has never ever loved the way that I have loved you  
As long as there's a chance for us  
I hope you never find somebody new You have not convinced me yet to go  
My heart still says there's something going on  
And until I know we're finally through  
I hope you never find somebody new I'm acting like an actor, dancing like a dancer  
But when the curtain falls I always call out for you  
As long as I still love you  
I hope you never find somebody new You have not convinced me yet to go  
My heart still says there's something going on  
And until I know we're finally through  
I hope you never find somebody new  
I hope you never find somebody new Somebody new, somebody new  
Somebody new, somebody new  
Somebody new
