

# Moving On Up

## Cimarons

You've done me wrong  
Your time is up  
You took a sip  
(Just a sip)  
From the devil's cup You broke my heart  
There's no way back  
Move right outta here baby  
Go and pack your bags Just who do you think you are?  
Stop acting like some kind of star  
Just who do you think you are?  
Take it like a man baby, if that's what you are? 'Cause I'm moving on up, you're moving on out  
Movin' on up, nothing can stop me  
Moving on up, you're moving on out  
Time to break free, nothing can stop me They brag a man has walked in space  
But you can't even find my place  
There ain't nothing  
(Not a thing)  
You can do, 'cause I've had enough of me  
Baby being part of you Just who do you think you are?  
This time you've gone too far  
Just who do you think you are?  
Take it like a man baby, if that's what you are? 'Cause I'm moving on up, you're moving on out  
Movin' on up, nothing can stop me  
Moving on up, you're moving on out  
Time to break free, nothing can stop me I'm moving on up, you're moving on out  
Movin' on up, nothing can stop me  
Moving on up, you're moving on out  
Time to break free, nothing can stop me  
Yea Movin' on up  
Movin' on up  
Movin' on up  
Movin' on up Moving on up, you're moving on out  
Movin' on up, nothing can stop me  
Moving on up, you're moving on out  
Time to break free, nothing can stop me Movin', movin', movin', nothing can stop me  
Movin', movin', time to break free  
Nothing can stop me
