

# In the Street

## Big Star

Hanging out, down the street  
The same old thing we did last week  
Not a thing to do  
But talk to youSteal your car, and bring it down  
Pick me up, we'll drive around  
Wish we had  
A joint so badPass the street light  
Out past midnightHanging out, down the street  
The same old thing we did last week  
Not a thing to do  
But talk to you
