

We Are the Plague

Combichrist

Do you think it is over now?
Do you think it is safe?
Do you think you're on top of the world we built, above me?
Do you think you can handle this?
Be death to us all
Confrontational, hostile, piece of shit,
You're a fucking pig We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Now watch this place burn
By the color of fire, we'll set you free
Our riots are nothing but feelings,
A world set free, it's not a plea
Held down, by a world, ruled by you,
We're willing to bleed
Passion to live in a world where we're equal
Not by rules and under your rules We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Now watch this place burn
We were hoping for a better world
How it came to be?
Done fetching the stick you throw, called life
Hypocrisy Now we build the wall of hate
And we're all betrayed
Everything we stood for, fought for, thrown away
We're still the prey
Form an opinion, we're still just animals
And we will bite back
Like a dream, take me through the seedss of life
Get us back on track We are the plague to come

Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Watch this place
We are the plague to come
Now watch this place burn
