The Damned

oh yeah you're all cracked up fury
all get no jury to defend you
you tried but you couldn't try
when they see you
you want me to hang around
with you always
but you lie and die
when all you ever give me is disgrace
that's the way down
that's the way down
that's sedation
that's sedation
or one of the two
or one of the two
with our saturation eyes
you think you can disguise all those meat things
but can you grovel in the dust
with masochistic lust and make the song sing
oh yeah you're all cravked up fury
all get no jury to defend you
you tried but you couldn't cry
when they see you
that's the way down
that's the way down
that's sedation
that's sedation
or one of the two
or one of the two
oh yeah you're all cracked up fury
all get no jury to defend you
you tried but you couldn't cry
when they see you
you want me to hang around
with you always
but you lie and die
when all you ever give me is disgrace
that's the way down
that's the way down
that's sedation

that's sedation
or one of the two
or one of the two
one of the two
or one of the two
or one of the two
