

Blind

TV on the Radio

I seen a girl...
with a guy...
her hair like yours...
from what i remember

he took her hand..
he smiled her name..
her face like yours..
she smiled the same..
from what i remember..
its been soo long since last december...

She walked your walk
she talked like you
She shimmered strong
She shined right through
from what i remember

i said i~

i said i seen a girl
with a guy
soo who ive seen
soo who am i
now i cant remember

been so long since last december

been so long since last december

so im sending
up the ladder to the perfect girlfriend

im still mighty tiny~

hoping that you'd be my little godsend
cuz right now
i'll take any
and and blindly

but

before we find another noose to fit us
before we choose another hand to hit us
now let us ask eachother, whats the difference?

cuz if you save yourself, i'll save you all the time
up the ladder to the legions leering

are we entertained yet?~
why dont cast a gaze into moonlit clearing

cuz my love, my love is a suckerbet

before we find another noose to fit us
her hair like yours , from what i remember(lightly)
before we choose another hand to hit us

let us ask eachother whats the problem
been so long since last december(lightly)
why dont you save yourself, I'll save you all the time
Cuz if you save yourself, i'll save you all the time
now whats the problem(lightly)
save yourself, i'll save you all the time
now whats the problem(lightly)
save yourself i'll save you all the time
now whats the problem(lightly)
save yourself, i'll save you all the time
save yourself, i'll save you all the time
