That's The Girl I've Been Telling You About

Blessid Union Of Souls

I don't know what I was thinking when I seen her
I just had to find a way I could meet her
'Cause I've been dying for the chance just to treat her
Like the ripe little peach she is
Wouldn't even cross my mind to deceive her
Or she could lie through her teeth and I'd believe her
I don't know her but I know that I need her
And I don't think she's got a notion
But that's the girl I've been telling you about
Ain't she everything I said and a whole lot more?
She got it going on and I never want to be without her
That's the girl I've been telling you about
She's been spinning in my head like a revolving door
Her smile is like the sun
And my whole world revolves around her, yeah, oh
I don't even think she knows how she moves me
I can't explain it but she does something to me
If she ever looked, she'd see right through me
And I don't think that I could keep my cool
I could tell her that I want to get to know her
Take her places that I'd really like to show her
But I hear she's got somebody and he loves her
And I don't think he's got a notion
That's the girl I've been telling you about
Ain't she everything I said and a whole lot more?
She's got it going on and I never want to be without her
That's the girl I've been telling you about
She's been living in my head like a recurring dream
Her smile is like the sun and my whole world revolves around her
She lives in my head
From the start of my day 'til night
And every word that she says
I'm hanging onto so tight
That's the girl I've been telling you about
Ain't she everything I said and a whole lot more?
She's got it going on and I never want to be without her, no
That's the girl I've been telling you about
She's been reigning in my head like a pouring storm
Her smile is like the sun and my whole world revolves around her

Like a soul in the wind, I've been lost since the day I found her
What I'd give to be everything she needs like the air around her
Got my arms open wide, wish she knew they belong around her, yeah
