

# Break Me Gently

## Doves

Walk inside, gets noticed  
Fears conspire, they won't go away  
And I know, and I see  
You'll be breaking hearts again  
You break me gently  
Break me gently  
Break me gently  
Break my fall in vain  
Pain won't go, rest in peace  
And I look, and I see  
You could be breaking souls again  
And I see me, break me gently  
Break me gently  
Break me gently
