

# Timebomb

Tove Lo

You made your way in as I was leaving  
You cut in line just as I was getting my stuff  
And I couldn't decide if you were the most annoying human being I'd ever met  
Or just the best thing that ever happened  
Just the best thing that ever happened You took the key out of the ignition  
I could hear the rain on the windows  
Right then and there I made up my mind to just go with it  
Thinking what's the worst thing that could happen?  
When the worst thing that could happen, could be the best thing ever We're not forever  
You're not the one  
We're not forever  
You're not the one  
We're not forever  
You're not the one You and I could be the best thing ever  
We're not happy ever after  
We don't got what it takes  
And we don't make plans  
Cause we're never gonna last We're not forever  
You're not the one  
You and I, we're a time  
Bomb bomb bomb bomb  
Bomb bomb bomb bomb  
We're not forever  
You're not the one  
You and I, we're a timebomb I shut the door and never looked back  
When something this good comes along you're better off letting the first time be the last time  
But really, what's the worst thing that could happen  
When the worst thing that could happen, could be the best thing ever We're not forever  
You're not the one  
We're not forever  
You're not the one  
We're not forever  
You're not the one You and I could be the best thing ever  
We're not happy ever after  
We don't got what it takes  
And we don't make plans  
Cause we're never gonna last We're not forever  
You're not the one  
You and I, we're a time

Bomb bomb bomb bomb  
Bomb bomb bomb bomb  
We're not forever  
You're not the one  
You and I, we're a timebomb Ooh, we could be the best thing ever Oh we, could be (we could be the best thing  
ever)  
The best, thing, ever (we could be the best thing ever) Ooh, forever (we could be the best thing ever)  
Oh we, could be, the best  
We're a time bomb  
Bomb bomb bomb bomb  
Bomb bomb bomb bomb  
We're not forever  
You're not the one  
You and I, we're a timebomb
