Losing Sleep

Chase Coy

We're both losing sleep
Just to make our time last
Always in a hurry
Just to grow up too fast
But we've got time
Yeah, we've got time
The season's always changing
But we can't let go yet
Setting two alarms
In case we happen to forget
That we've got time
Yeah, we've got time
And you don't have to go
We've got our plans
But we keep our voices low
And baby, that's the way that these things go
We must be patient
While we're waiting
For the final chord
To play out for our song
We're both losing sleep
Just to make our time last
Trying just to hold on
To the memories that we have

But we've got time
Yeah, we've got time
A year's already passed us
But we can't let go yet
The calendar reminds us
When we happen to forget
That we've got time
Yeah, we've got time
And you don't have to go
We've got our plans
But we keep our voices low
Baby, that's the way that these things go
And you don't have to go
We've got our plans

But we keep our voices low
Baby, that's the way that these things go
We must be patient
While we're waiting
For the final chord
To play out for our song
So in the meantime
Take a breath and sing along
