Simple Things

RichOdd

A lifetime is great but a lifestyle will take you to a separate place that you couldnâ€™t contemplate I man what is life anyway when you really stop the thing from most that sleep work getup drink I need to know that people care something that gets me through the day I guess through this daily mess but on the other hand man I donâ€™t really mind and find that most are quick to judge yeah and leave you behind but I roll with some great mates that got my back I got theirs for that man I wonâ€™t look back I hope to take my last steps with you breath with you if you guys ever need anything Iâ€™ll be there for you yeah thereâ€™s not enough love going around this worldâ€™s with hate man itâ€™s really profound hereâ€™s a list of things we could do together baby lets travel the world in case we go under the weather

Itâ€™s the simple things to me, Itâ€™s the simple things to me, Itâ€™s the simple things to me, that really get me
Itâ€™s the simple things to me, Itâ€™s the simple things to me ooooh, that really get me off

As I rhyme I think about her eyes think about the beauty in this earth put aside from all this crazy madness dungeons and dragons savage wolfs that cause havoc in a panic we make fast decisions walk the tightrope like an acrobat in the circus I invision on my really bad days walking into the sunset with your head to an enchanted place donâ€™t bother hating on others thatâ€™s a trap it will keep you in solitary like Alcatraz itâ€™s a lot more simpl they make it out to be Itâ€™s fresher all around donâ€™t forget to breathe self-consciously Iâ€™ve stored a disease i head anger fuelled vibers put to destruction at lead now Iâ€™m fed up to the brink of insanity but itâ€™s only simple things that are keeping me managing yep weâ€™re easy brinkin to the booze Iâ€™m sinkin take it hypothetically but I was in the 70â€™s just to have you next to me staring at the stars sippin from the same bottle of whisky in your bra itâ€™s risky I know but that place Iâ€™m willing to go I Hate fairy tales but ours is like Oooh different from the rest it simple but complex look up at me and smile you know time is the truest test

Itâ€™s the simple things to me, Itâ€™s the simple things to me, Itâ€™s the simple things to me, that really get me
Itâ€™s the simple things to me, Itâ€™s the simple things to me ooooh, that really get me off
