

All I Got

Chantal Kreviazuk

Honestly I love you more than I could love myself
More than any baby that in my arms I ever held
And when I'm away from you I wonder
If I'm ever gonna see you again
Cuz you're the only taste of heaven
That I ever seem to get You're all I've got
You're everything in one pop
So come a little closer
I'm giving full disclosure
I'm lost without you The moment I first saw you I felt like I was in my body
I don't look for exit signs in every room I walk in
There's nothing that need escaping
There's a piece inside that's set led in
And the wounds are no longer gaping
I'm finally alive again You're all I've got
You're everything in one pop
So come a little closer
I'm giving full disclosure
I'm lost without you You're all I've got
You're everything please don't stop
You and me are magic
So beautiful it's tragic
I'm lost without you And you saw me as if I didn't have those scars
And you saw me the way you look up at those stars You're all I've got
You're everything in one pop
So come a little closer
I'm giving full disclosure
I'm lost without you You're all I've got
You're everything please don't stop
You and me are magic
So beautiful it's tragic
I'm lost without you
