Any Other Way

Bahamas

I love you, baby, and I want to know
If the little baby that's inside of you grows
Months will pass by and when you start to show
That's when I'll be jumping for joy
Oh, that's when I'll be jumping for joyI'm so happy that you're mine, all mine
I'll get your loving in the evening time
I know you think it's trouble
And I hate to burst your bubble nowI love you, baby, and I've just gotta say
If the little baby that's inside of you stays
Years will pass by and when we're both old and gray
That's when I'll be jumping for joyOh, that's when I'll be jumping for joy
Oh, that's when I'll be jumping
Fist in the air, pumping for joy
I wouldn't have it any other way
