

Love You Hate You

Keke Palmer

I love you so much
I hate you so bad
Said "I don't miss you"
You know that's not true
Boy, I want you back
I hate you so much
But I love you oh-so-bad
When I say I'm leaving
I don't mean it
I just want you back
Got my hopes up when we broke up
That we would get back
Always said that no matter what we would be together
I want you back now more than ever
Feels like we're on a roller coaster
You take me up high
Then take me down low
There go the games, boy, you think you're clever
You try to play me, it's so whatever
Oh, some days we on the same page
Oh, then we go our separate ways
Oh, and our love's down the drain
Oh, then I'm calling you again
Oh, some days we're on the same page
Oh, then we go our separate ways
Oh, and our love's down the drain
Oh, then I'm calling you again
I love you so much
I hate you so bad
Said "I don't miss you"
You know that's not true
Boy, I want you back
I hate you so much
But I love you oh-so-bad
When I say I'm leaving
I don't mean it
I just want you back
La la la la la la la
Tell me a way we can make this better

Boy, I want you back now forever

La la la la la la la

We can base it all on this week together

Boy, I want you back now forever

When you call me and I hang up

And I call right back and you pick up

Phone dies 'cause we talk for hours

Can't resist, you got superpowers

Only want me when you're lonely

But when I want you, you don't know me

You text me, I say "I'll hit you later"

Really I wish you would come and save me

Oh, some days we on the same page

Oh, then we go our separate ways

Oh, and our love's down the drain

Oh, then I'm calling you again

Oh, some days we're on the same page

Oh, then we go our separate ways

Oh, and our love's down the drain

Oh, then I'm calling you again (then I'm calling you again)

I love you so much (so much)

I hate you so bad (so bad)

Said "I don't miss you"

You know that's not true (not true)

Boy, I want you back (want you back)

I hate you so much (so much)

But I love you oh so bad (so bad)

When I say I'm leaving

I don't mean it

I just want you back (I just want you back)

La la la la la la la

Tell me a way we can make this better

Boy, I want you back now forever

La la la la la la la

We can base it all on this week together

Boy, I want you back now forever

La la la la la la la

Tell me a way we can make this better

Boy, I want you back now forever

La la la la la la la

We can base it all on this week together

Boy, I want you back now forever
