

# Turn To Dust

## Wolf Alice

Keep your beady eyes on me  
To make sure i don't turn to dust  
If fear is in the mind, then my mind lives in fear  
as deep in this voice as a dirty British sea  
Keep your beady eyes on me  
To make sure i don't turn to dust  
There's paths to make that be  
And paths where i get scared  
And the path to thread lightly with the clouds beneath my feet  
(Oooh) And the light keeps falling, the blinds are  
dancing with everyone  
It's just so passive, tiny hands with everyone  
Keep your beady eyes on me  
To make sure i don't turn to dust
