United

Los Creepers

Look around
They're movin' in
Hold your ground
When they begin
We can do it, we can do it
And if they wanna they can try
But they'll never get near
And they can keep out of here
Gonna keep on drivin' never stop
United, united, united we stand
United we never shall fall
United, united, united we stand
United we stand one and all
So give me hope, don't give in
Make a stand, we're gonna win
We can do it, we can do it
And if they wanna they can try
But they'll never get near
And they can get out of here
Gonna keep on drivin' never stop

United, united, united we stand
United we never shall fall
United, united, united we stand
United we stand one and all
So give me love
United, united, united we stand
United we never shall fall
United, united, united we stand
United we stand one and all
United, united, united we stand
United we never shall fall
United, united, united we stand
United we stand one and all
United, united, united we stand
United we never shall fall
United, united, united we stand
United we stand one and all
United, united, united we stand

United we never shall fall
