

Girls' Night Out

The Knife

We were looking for a room
We were looking for a hotel
We were in between
We were a few chosen Somewhere to fit in
Something that's fitting
After one day it started itching
And we rubbed until it was bleeding And we ran through
The moonlight far beyond
And we laughed
Through the moonlight far beyond We were looking for something to blow up
We were looking for someone to follow
We were had one way out
We were some hours left We were so close
We knew we were chosen
We aimed for high speed
And for someone who could catch me And we laughed
At the moonlight far beyond
And we ran through
The moonlight far beyond
