

Race To Erase (feat. Faux Fix)

[Son Lux](#)

Oh, the vacant night
Speaking silence you wrote
I would follow you Scattered pieces of you
Filling spaces you were
Silence followed you
Speaking out my name
Come again, come again, come again And we race to erase Absent glimpses of you
Story lost with time
Shadows followed me
Calling out my name
Come again, come again, come again And we race to erase Oh, the hallowed night
Cries of silence we wrought
How it followed us Scattered pieces of us
Filling spaces we were
Silence followed us
Crying out our names
Come again, come again, come again And we race to erase
