Wishes

Human Nature

Sometimes I wish that I could turn back time
I check myself 'cause I was way out of line
I only hope that we can start all over again
I must admit that I was more than wrong
I use your heart like a stepping stone
Please forgive a fool who doesn't know what to do
What do I do?
And I wish that I could have just one more chance
And I wish that I could be your pillar of strength
And I pray that you will see that what I'm saying is true
'Cause I, I wish for you
In my mind, I can see your face
You're on the breath of every word I say
If there's anyone to place the blame on, it's me
Baby, can't you see?
And I wish that I could have just one more chance
And I wish that I could be your pillar of strength
And I pray that you will see that what I'm saying is true
'Cause I, I wish for you
I wish for you
I wish for you
(For you)
Oh baby, I wish
I really miss you, baby
I think about you, baby
(All night long)
I really need you, baby
I wanna hold you, baby
Stay with me
(Won't you stay?)
And I wish that I could have just one more chance
And I wish that I could be your pillar of strength
And I pray that you will see that what I'm saying is true
'Cause I, I wish for you
I wish for you
I wish for you
(For you)
Oh baby, I wish for you
