

Blood In Blood Out

Jedi Mind Tricks

(Some guy)

If one does what God does enough times, he becomes as God is

If you put it together, you get what you wanted

what you desired, if you do it enough times

He believes, you become one who is desired, and wanted, and accepted

Because God has Power

And if one does what God does enough times, one will become as God is

[Vinnie Paz]Yeah Jedi Mind Baby

Yeah

Yeah we bringin you the hardcore, the real raw type shit

You ain't never seen nothing before like this

Its all real, all ill, and all natural

We all kill, all still, an blast at you

I like blood, I like tasting ya flesh

I like slugs, I like David Keresh

I like anything thats related to death

I like any king that can reign with his fist

Now back to the topic at hand

Steadily Shine, Shine Steadily with my fam

Im the one who put the nail in the cross

I'm the one who told the world about an alien corpse

I'm the one who brought the truth to the light

If you listening to me you couldn't lose in a fight

Abusing the mic, with the force of five lions

Anybody f**kin with Paz can die trying

[Vinnie Paz]I'm a caged lion, always dying to hurt you

Always a believer that my rhymings a virtue

You just a heathen, and you lie like the church do

I can't believe that Allah is a curse to

You too commercial, you still a disgrace

You like to sit around with women watching Will & Grace

I can't over-stand your sweetness

You should try hire a therapist to beat this

Im being facetious, you should heat this

Im the one who hammered the first nail in Jesus

Im the definition of Toxic

Anyone who ever got close to me got sick

[Vinnie Paz]We like heavy metal, listening to Sepultura

Remain calm, study as long, and read Torahs
You can't fallow the paths of Mans Hill
You can't study the math and can't ill
You can't over-stand what I believe
You drown in an ocean of God and can't breath
It's like I've been involved with beef
Since the days of ??
I learn how to worship Allah
I learn how to rhyme, and I teach it to yall
Im speakin to yall
Its hardcore, real rap
Real Slugs, Real Clips and Real Gats
You real wack, and thats how I feel
And thats the reason that I got a reason to kill
Yeah.. fallow me daddy
