

3 Chances

Oh Land

Do two hearts get three chances?
First time you took me in
Then turned around and left it
But if kittens all got 9 lives and zombies resurrected
Then how can I have one more try to get our love corrected? Do two hearts get three chances?
I said I was over you when you came back for seconds
But you believed in my acting skills and now I just regret it
So how can I have one more try get us reconnected
Do two hearts get three chances?
Now you're here in front of me and the future's open ended
If kittens all got 9 lives and zombies resurrected
Then could it be with you and me
This pattern's never ending
