

# Mythology (Live Acoustic)

## VersaEmerge

I've looked right past the simple things  
What have my eyes missed?  
Stuck in a space where nothing seems to fit  
You live a myth, obsessed with it Quiet as the sound  
I'm always asking what it means  
And now I can't stop twisting round and round I've grown into this  
This myth with you I can't stop twisting around this story line  
Distorting my insides  
I won't forget, I'm drenched in it 'Cause I can't stop twisting around this story line  
Tangled words were never mine  
I won't forget, I'm lost in it Slowly bending backwards  
'Til my days become misshaped  
You deftly sway my thoughts with your fictitious ways Nothing in me works the same  
You've got a lot to explain  
Still I'm asking and still I can't stop twisting I've grown into this  
Myth with you I can't stop twisting around this story line  
Distorting my insides  
I won't forget, I'm drenched in it 'Cause I can't stop twisting around this story line  
Tangled words were never mine  
I won't forget, I'm lost in it Knots and crosses, skews, I fold in two  
With this road we take  
I've lost all control of everything, especially me You've lost everything especially me  
You bite my tongue, oh, now I'm alive I can't stop twisting around this story line  
Distorting my insides  
I won't forget, I'm drenched in it 'Cause I can't stop twisting around this story line  
Tangled words were never mine  
I won't forget, I'm lost in it  
Oh, now I'm alive
