Stand Up

All That Remains

I know
No one had ever dreamed that
We were this strong and we'd achieve this
So long the doubt and all believed it
And now
It's come for all to see yeah
We've worked so hard
Pushed every day now
See you can hear us say
Stand up, stand up we were right
You know we can't be more justified and they can't deny it
Stand up, stand up we were right
We've come too far just to fade away and they can't deny it
I've heard the words those in the circle say
"So what, they're do've don't matter any way"
Well here's your proof they're all silent today
And there's no way they can take it away.
We've worked so hard

Pushed every day now
See you can hear us say
Stand up, stand up we were right
You know we can't be more justified and they can't deny it
Stand up, stand up we were right
We've come too far just to fade away and they can't deny it
We never said it was easy
And no one gave us a thing
Now that last part is so pleasing
We're stronger than you think
(SOLO)
Stand up, stand up we were right
You know we can't be more justified and they can't deny it
Stand up, stand up we were right
We've come too far just to fade away and they can't deny it
Stand up, stand up we were right
(They can't deny it)
Stand up, stand up we were right
