You Looked Into My Eyes

Korpiklaani

We are here alone Only the camp fire Shines on your face I touched your hand But you disappeared As the smoke the air[Chorus:] You looked into my eyes You have me hypnotized And I do what you want to We are here alone Only the moon And wolves are with us Fire swallowed You and your hair were ablazed But you still laughed loud I'm alone again And old pine tree Asked me, where's your woman? I said: Shut up Or I make of you another Firewood[Chorus]
