

Confidence

Elvis Presley

When everyone thought the world was flat
Columbus said it's round
He went down in history and America was found 'Cause he had confidence
A little thing called confidence
There's no job too immense
When you've got confidence With a C and an O and a N and a F
And a I and a D and an 'ence'
Put 'em all together and what have you got?
Confidence You'll be surprised what you can do if you will only try Remember the tortoise and the hare
Who had that famous race
The speedy hare wound up nowhere
And slow poke took first place 'Cause he had confidence
A little thing called confidence
There's no job too immense
When you've got confidence You'll be surprised what you can do if you will only try
How do you know that you can't ride a rainbow in the sky?
You'll be surprised what you can do if you will only try All you need is confidence
A little thing called confidence
There's no job too immense
When you've got confidence With a C and an O and a N and a F
And a I and a D and an 'ence'
Put 'em all together and what have you got?
Confi, confi, confidence
