

Little Pain Inside

Buck-O-Nine

I realize I'm hungry
I recognize the pain in my gut
I don't know where it comes from
Or what I'm gonna do about it
This little pain inside my tiny tummy
Soupplantation, Fosters Freeze
In-N-Out or Chuck E. Cheese
Burger King or Taco Bell
All these restaurants sound so well
And that's what I'm gonna do about it
This little pain inside my tiny tummy
Hamburger Helper on those days
And when I sit home and fucking laze
And when my budget is kind of low
There's only so many good places to go
And that's what I'm gonna do about it
This little pain inside my tiny tummy
