# Let Me Be The One

## Same Difference

If love is so easy,
Why do words come out wrong?
Cause I've been longing to tell you,
It's with you that I belong
I don't know much, but this much I know
I have fallen in love,
Don't want to let this feeling goI'm helplessly, hopelessly falling,
In love with you[CHORUS]
Let me be the one, let me show you how
How my heart was made for loving only you
You're my morning light
You're my dreams at night
You're my everything just let me be the oneThe beat of your heart, is like music to my soul
You're the piece I've been missing
You're the half that makes me wholeI'm helplessly, hopelessly falling,
In love with you[CHORUS x3]
