

# Honey & I

## HAIM

Goodnight  
I know there's nothing good in goodbye  
But you lead me to no other line  
No other line  
Eyes wild  
When you walked through the door  
You made your way across the floor  
And all the little girls had to try their turns  
Try their turns But oh no, I'm not afraid no more  
(I'm not afraid no more)  
To turn you away no more  
(Turn you away no more)  
To turn you away, to turn you away 'Cause my honey and I, yeah yeah  
My honey and I (x3)  
Are doing just fine, yeah  
Honey and I (honey and I)  
My honey and I (x3)  
Are doing just fine, yeah Oh, no, no, no  
I don't love you just because  
Love wasn't what I thought it once was  
But I thought it once was telling each other  
Everything picking out your wedding rings  
No, now I know and now I see  
I'm not afraid no more  
No no no no no So why are you always trying to stay at home?  
(Why are you staying there?)  
This song can't be played alone  
(This song can't be played alone)  
It was made to be played with my Honey and I  
My honey and I (x3)  
Are doing just fine, yeah  
Honey and I (honey and I)  
My honey and I (x3)  
Are doing just fine, yeah Oh oh (oh oh) (x2)  
Ah ah yeah
