

# Tequila Town

## Brooks & Dunn

Left Laredo with the sun in my eyes  
Broke heart and a bloodshot sky  
Been runnin' since she left me alone  
Way up north in San Antone Days get long but I don't get far  
Spent last night some low life bar  
Found her memory in a mescal haze  
And lost my mind while the guitar played I'm gonna carry this burden way out West  
Find a way to lay this hurt to rest  
Live it up 'til I live her down  
Lost in Tequila Town Left her standing in a tear stained dress  
I cursed the day that I confessed  
Wayward sins of a mortal man an'  
Watched the ring come off her hand Looking back on all I've lost  
Price I've paid ain't worth the cost  
I'll run this road until it ends  
And maybe find my way back to her again I'm gonna carry this burden way out West  
Find a way to lay this hurt to rest  
Live it up 'til I live her down  
Lost in Tequila Town Yea I'm gonna carry this burden way out West  
Find a way to lay this hurt to rest  
Live it up 'til I live her down  
Lost in Tequila Town  
Yea Tequila Town
