

# I'm Right Here

[Samantha Cole](#)

When I was on the dark side of the street,  
You turned your love light on, so I could see.  
When I lost faith in myself and humanity,  
You were the one who gave it back to me.  
Now there's pain in your eyes,  
As you try to fight back all the tears.[Chorus]  
Maybe you can't see, I'm right here.  
Don't be ashamed if you want somebody near.  
Look over your shoulder, the way is clear.  
All you gotta do is say my name, I'm right here. You don't always have to be under control;  
Sometimes you have to lose it to find your soul.  
You hate yourself for the weakness you feel inside,  
And your reaction is to run and hide.  
Well I know how it feels to be facing everything you fear.[Chorus] Oh, when the weight on you becomes too  
much to bear.  
Let me help you with it, don't despair.[Chorus] All you gotta do is say my name, I'm right here.
