

# Amuse Bouche (rbr\_mix)

## Fischerspooner

It's the taste of the unexpected  
Surprise flavors that enhance your perspective  
A lovely tease of what's to come  
Something that you've never known Amuse bouche It may be strange and a little bit frightening  
An awkward taste but very enlightening  
A hint of this and a drop of that  
Lick your lips and don't look back Amuse bouche Don't look back, don't look  
Don't look back, don't look  
Don't look back, don't look Don't look back, don't look  
Don't look back, don't look  
Don't look back, don't look
