

Freeze Time (Acoustic)

Braiden Wood

If we had the chance to go back in time
 I'd bring back friends that were left behind
 Try to sleep, try to keep that poker face in line
 We're so young, how strong, but there's no rewind Sometimes I don't know what to say
 There aren't enough hours in a day
 The time on the clock ticks away
 And life fits you with a slight delay We still have hope to get it right
 Be free, be strong Let's go out in the world tonight
 Explore the stars and see the lights
 Let's find something worth living for
 Together, we have so much more With you, I feel like I could find
 When time slows down, you know it's right
 Girl, you freeze time
 Girl, you freeze time Lost keys, scraped knees, the song is sung
 We dance, dance, no 'rents, what could go wrong
 May nights will fight, go on and on
 I knew this would happen, all along Step outside, it's just you and me
 Seems to me like we were meant to be
 Broken homes make it hard to see
 That won't change what we believe We still have hope to get it right
 Be free, be strong Let's go out in the world tonight
 Explore the stars and see the lights
 Let's find something worth living for
 Together, we have so much more With you, I feel like I could find
 When time slows down, you know it's right
 Girl, you freeze time We still have time to get it right
 We still have time to get this right
 We still have time to get it right
 We still have time to get this right
 We still have time to get it right
 We still have time to get this right
 We still have time to get it right
 We still have time to get this right
 We still have time to get it right
 We still have time to get this right
 We still have time to get it right
 We still have time to get this right Let's go out in the world tonight
 Explore the stars and see the lights
 Let's find something worth living for

Together, we have so much more
With you, I feel like I could find
When time slows down, you know it's right
Girl, you freeze time
Girl, you freeze time
Woah
Girl, you freeze time
