Night Watch

Night Watch
Written and Copyrighted by Bob Thomas

Itâ€™s late at night
Iâ€™m garden the herd
Out on the prairie
No other person to say a word

The noise of the herd
Keeps me company
Coyotes howlen
Want to steal a cow from me

Just my presents
Keep them coyotes away
I grab my guitar
And I begin to play

Solo

The stars in the sky
Help show mw the way
A star shoots on by me
Lights the night like the day or but the herd is ok

The moon lights the night
Times rolling slow
How many hours
I really donâ€™t know

Iâ€™m tired and weary
And cold to the bone
Watching them cattle
Just me all alone

Solo

I ride here alone
keep myself awake

Itâ€™s been a long wait
Until then day break

Iâ€™m done with the night watch
Itâ€™s the start of another day
Got to get the herd moving
And weâ€™re on our way.

Got to get the herd moving
And weâ€™re on our way.
