

We're Gonna Go Fishin'

[Hank Locklin](#)

Bring along your fishin' pole and leave your dirty dishes
Meet me by the fishin' hole and wear your leather britches
Tell your ma and pa every thing's all right
We're gonna go' fishin' next Saturday night
Lipstick, makeup leave behind
Makeup takes up too much time
You're a little honey and you're quite a dish
But Saturday night we're goin' fishin' to fish
Don't forget the frying pan and bring along some minners
Gonna catch a catfish and we'll cook him up for dinner
Roll it up and fry it up and bake it up right
We're gonna go fishin' next Saturday night
Lipstick, makeup leave behind
Makeup takes up too much time
You're a little honey and you're quite a dish
But Saturday night we're goin' fishin' to fish
Never mind your powder puff we're not a-goin' dancin'
'Cause your daddy's had enough of dancin' for romancin'
Bring along your brother that'll be all right
We're really goin' fishin' next Saturday night
Lipstick. makeup leave behind
Makeup takes up too much time
You're a little honey and you're quite a dish
But Saturday night we're goin' fishin' to fish
Lipstick, makeup leave behind
Makeup takes up too much time
You're a little honey and you're quite a dish
But Saturday night we're goin' fishin' to fish
