## Paradise Lost

I don't owe anything  
I don't owe anyone  
Shoot pride for all it's worth  
I don't belong In a situation now  
That I could not repair  
I assert myself to sleep  
Show others that I've cared  
How cold is this poor life  
Lay ashes at my grave If it takes me away from you  
A subtle gesture I don't know anyone (cherish my religion)  
I don't know anyone (faith is only fiction)  
I don't know anyone (cherish my religion)  
I don't know anyone (faith is only fiction)
