

# GETTING HOT

Larry Levan

(Jackie Fox/Lita Ford)

With every beat of my heart its getting dark  
There's something in the air  
The doors aren't locked, you know it's not  
But I just know you're somewhere  
Hands on the table, are they empty got a fable  
Is it true?  
Say he's coming no one said a word  
They've gotten through  
Its such a crush, its getting hot  
Temperature's rising it's getting hot  
Shot a single word for telling true  
I can hear him pant

I wanna leave but I just can't breathe free  
If they begin their chant  
Its such a crush, its getting hot  
Temperature's rising it's getting hot  
Church is breaking my body's shaking  
I just can't tell  
He's coming back my head is black  
He must be under a spell  
Its such a crush, its getting hot  
Temperature's rising it's getting hot
