

# Sky Is the Limit (feat. Jake Reese)

## Lost Frequencies

[Verse]

In our hearts we always know where we belong  
Nothing holds us back, we can't go wrong  
Don't look back, I wanna seize the day  
Oh no matter what they say [Chorus]

The sky is the limit  
Just wait for falling stars  
I know that you want it  
It's right there where you are  
We can make it happen  
This is where we start  
Cause nobody's perfect  
We all have our scars  
The sky is the limit  
Just wait for falling stars  
I know that you want it  
It's right there where you are  
We can make it happen  
This is where we start  
Cause nobody's perfect  
We all have our scars [Verse]

In our hearts we always know where we belong  
Nothing holds us back, we can't go wrong  
Don't look back, I wanna seize the day  
Oh no matter what they say [Chorus]

The sky is the limit
