

Fool's Gold

Graham Parker

I been doing my homework now for a long long time
And everything that I look for I know I will one day find
I'm a fool so I'm told I get left in the cold
'Cause I will search the world for that fool's gold, fool's gold
Oh, the world may be full of girls with their
charms on show
But the one that I seek will have much more than any I know
People say heaven knows see what comes I suppose
But I will search the world for that fool's gold, fool's gold
Huh, I, I, I, I, I, I, I
I, I, I, I, I, I, I, oh yeah
Then oh, people say heaven knows
Heaven knows heaven knows see what comes I suppose
But I will search the world for that fool's gold
Oh yeah, fool's gold, oh, ho, yeah fool's gold
Fool's gold, fool's gold, fool's gold
Fool's gold, fool's gold, fool's gold, fool's gold
Keep searching in the mountains in the valleys in the deep blue sea
I will search, I will search, I will search for fool's gold
Go oh, oh, oh, oh, oh, oh, oh
I will search for fool's gold, I will search for fool's gold
I will search, I will search, I will search
I will search for fool's gold, I will search for fool's gold
I'm a fool, I will search, I will search, I will search for fool's gold
