

Just Not Today

Should

I left a message for myself
it was on the stairs last night
and I passed it going out
and you passed it coming back

donâ€™t you know just to fade away?
donâ€™t you know just to fade away?

I liked the concept; I liked your hair
it propped me up; Iâ€™m filled with air
but it had no permanence
like my own disfigurement

donâ€™t you know just to fade away?
donâ€™t you know just to fade away?

just to fade away
just not today
