Pirate

6 Pack Deep

He'll sail on in with the summer wind
That blows on this came day
Everybody called him 'Pirate'
Dark and handsome in his own wayAnd the fire in eyes
Lit all the fire inside of me
And soon you were feeling
So much more than the wind and waves and seaPirate, I'm not gonna take your soul
I only want the right to love you
I know the sea won't let you go
Pirate, my love will only chain ya down
So just know how much I love you
And then turn that ship aroundEvery time that he'd sail back to me
We'd fall in love again
And my face would fill with wonder
At all the places that he'd beenBut I knew his sweetest love song
Was when he heard the trade winds blow
And I loved him way too much
To tell the secret he should know
I told himPirate, I'm not gonna take your soul
I only want the right to love you
I know the sea won't let you go
Pirate, my love will only chain ya down
So just know how much I love you
And then turn that ship aroundNow as I watch in silence
Another young man goes to sea
And his silhouette is stirrin' up
A painful memoryAnd I know his heart is set to sail
But mine is set to cry
'Cause I feel as the way I did
The day his daddy said goodbye
I told himPirate, I'm not gonna take your soul
I only want the right to love you
I know the sea won't let you go
Pirate, my love will only chain ya down
So just know how much I love you
And then turn that ship aroundPirate, I'm not gonna take your soul
I only want the right to love you
I know the sea won't let you go
Pirate, my love will only chain ya down

So just know how much I love you
And then turn that ship around
