Summer's Stellar Gaze

Silverstein

As time passes us by and hurries us with pride
We'll have the past for the rest of our lives
Don't lose touch with reality
Compensate for life's stupidityI wait for it
You know that it's true, you cannot lose
A summer can't be forgotten
From the words that you speak
Summer's stellar gazeI wait for it
You know that it's true, you cannot lose
You're one of the few
Summer's Stellar Gaze
