

# Wooly

## Breathe Carolina

Did I give in so much?  
Was it never enough?  
The walls are rising up  
Is it too late to lose? And I wish you well on the storm giving you hell.  
So take cover 'cause I'm not the only one.  
I'm not the only one  
I'm not the only one in here with everyone  
I'm not the only one. You're never close enough  
You're too far behind  
Slipped to the floor  
No heart to find And I wish you well on the storm giving you hell  
So take cover cause I'm not the only one.  
I'm not the only one.  
I wish you well  
You won't drag me to hell  
And you'll never, you'll be the only one.  
You'll be the only one. Come back to me  
Your heart is not breathing  
Come, come back to me  
Your heart is not breathing (Please don't drag me down with you)  
(Taking me down with you)  
Please don't drag me down, ever  
(Dragging me down with you) And I wish you well on the storm giving you hell  
So take cover, cause I'm not the only one  
I'm not the only one  
I wish you well, you won't drag me to hell  
And you'll never, you'll be the only one  
You'll be the only one
