

# Does Your Daddy Know About Me

[Lonestar](#)

Well you say your daddy is a real cool dude  
And you keep no secrets from him  
Well he knows you got a wild hair  
Knows your kinda out there  
And knows about your crazy friends  
And he done found out about the night  
You snuck out with the Cadillac keys  
But darlin' does your daddy know about me? Well he knows you been skippin'  
Them Sunday school meetings  
He's heard how fast you drive  
Knows you got an attitude  
Seen your little tattoo  
But he lets all that slide  
And I bet my boots that he think he knows you from A to Z  
But darlin' does your daddy know about me? Well do you think he's got a clue about the things  
We've been doing underneath the moon and stars?  
And how the ground starts shakin' from the poundin' of our hearts  
Yeah, like a good daddy should he's warned you about the wolves  
And told you about the birds and bees  
But darlin' does your daddy know about me? Well do you think he's got a clue about the things  
We've been doing underneath the moon and stars?  
And how the ground starts shakin' from the poundin' of our hearts  
Yeah, like a good daddy should he's warned you about the wolves  
And told you about the birds and bees  
But darlin' does your daddy know about me?  
Yeah, darlin' does your daddy know about me?
