

Morbid Tales

Celtic Frost

By burial this night
Nitocris weaves the spell
Down the vault's misty light
The lurking Sphinx dwells Agony and nightmare
To Yog sothoth they Moan
Nightfalls, morbid affair
Beard the faceless one In the nuclear domain
Arcades lost in eternal skies
Written by the insane
Nitocris orders must Agony and nightmare
To Yog sothoth they moan
Nightfalls, morbid affair
Beard the faceless one Mummy's rebirth by wrath
Below the temple of Nile
Vanished in Osiris path
Above us reigns the Necrophile Agony and nightmare
To Yog sothoth they moan
Nightfalls, morbid affair
Beard the faceless one
